Education

2018 - 2022

Yarmouk Private University

Bachelor's degree Computer Software Engineering

Field of Study: Programming, Algorithm Analysis, Database Systems, System Analysis and Design, Computer Networks, Image Processing, Artificial Intelligence, Natural Language Processing, Neural Network

Certificates

- **Transacting on the Blockchain**

  2021 - April

  INSEAD - The Business School for the World

  - Smart contracts and how to build and benefit from them.

  - Solidity Language.

- **Build Blockchain and Crypto currency**

  2021 - April

  Udimy

- Developed Cryptocurrency using Node js, React js, Express js, jest .

- **Blockchain basics**

  2021 - March

  University at Baffalo

  - Learn about blockchain, cryptocurrency, hash, and peer-to-peer network and the algorithms used in it .

- **Cloud Development with HTML, CSS, JS.**

  2021 - March

  IBM

- **Introduction to Cloud Computing**

  2021 - March

  IBM

  - Learn about Cloud Computing, Public Cloud, Private Cloud and Hybrid Cloud .

  - Virtualization and Containerization .
- **Full Stack Web Development**

  2019 - May

  NewHorizons

  - Html, Css, Javascript.

  - PHP, Mysql .

TECHNICAL SKILLS

Node.js   React   MognoDB   C#   Python   Java

Docker   C++   Cloud Google   Blockchain

Development Tools

Visual studio   Visual studio code   Sql server   Ubuntu   Android studio

- **Programming Language :** C, C++, C#, Java, Python, Solidity, HTML5, CSS3, JavaScript, Node js, Express js.
- **Database Programming Languages:** JSON, SQL, NoSQL(MongoDB).
- **Software Development Tools:** Visual Studio, Visual Studio Code, Android Studio, Eclipse, NetBeans, Code Blocks, Cisco Packet Tracer, SQL Server Management Studio.
- **Team Management Tool:** GitHub.
- **Modeling and Design Tools:** Visual Paradigm.
- **Operating System:** Windows, Ubuntu.
- **Software System Analysis.**

- Cloud Computing.
- Algorithms and Data Structures.
- Design Patterns.
- Object Oriented Programming.
- Software Development Life Cycle.
- Blockchain Technologies.
